Career Objective

Passionate Frontend Developer dedicated to building modern, user-friendly web applications using the MERN stack. I aim to contribute my technical expertise and creativity to dynamic development teams while continuously enhancing my skills in React, Node.js, and UI/UX design.

Projects

School Management System (MERN Stack)
Complete dashboard for student, teacher, and subject management with role-based access.

FitHaven — Fitness Tracker App
Interactive fitness tracking app to monitor activity, calories, and progress.

Portfolio Website
Personal responsive portfolio showcasing projects and skills, built with React and Tailwind CSS.

Inactivity Tracker Dashboard
Data-driven dashboard displaying activity analytics using charts and APIs.

Education

N.S Govt. College, Natore — BBA (Ongoing)

Shahid Nazmul Haque Govt. College, Natore — HSC (2019)

Naldanga Govt. High School, Natore — SSC (2017)
